A BIT OF BELL

## Made in Italy since 1976

Own production, quality and safety.

**Certification and Safety:** All Bell Snc products are tested for effectiveness to guarantee customers the best safety in compliance with EN 71, parts 1, 2, 3, RoHs, REACH, ISO, CEE.

We take care of the smallest detail and the safety of each of our products: from the certified doorbell to breakage, corrosion and sound, to the food-grade material of the water bottle, to the certified plastic.

**100% Made in Italy production:** Unlike the competition, Bell Snc guarantees (except for painting and chrome-plating processes) the complete processing of products within the company.

The raw materials used in the production process are certified first and selected entirely by Bell Snc.

Since 1976 our company has been operating in the production of bells, accessories for cycles and, in recent years, also in the molding for third parties of injection and blow molding thermoplastics. All our products, equipped with ISO certificate and CEE standards, are able to satisfy the market in terms of quality, speed of delivery and low cost of the service. Thanks to its decades of experience, Bell Snc strengthens its corporate identity and becomes the undisputed leader in the production of bells, continuing to guarantee that welcoming and familiar approach aimed at satisfying customer requests.
